new positions which had been requested and by swinging the ax in the maintenance department. Materials and services for repairs were cut by \$75,500, while more than \$250,000 was cut from the plant improvement and equipment section of the budget.

Board members want the budget cut so that salaries may be increased without increasing the cost per pupil by more than \$20. The board has yet to tackle the problem of how much to give the teachers, although there is near unanimous agreement that salaries will have to be raised.

NO INCREASE in the general fund tax rate—now set at \$3.03 per \$100 assessed valuation—has been suggested, but Waldrip has warned that taxpayers may expect a 6- or 7-cent hike in the state loan repayment tax. Local boards have no control over that rate, which is set by the amount of the payment due.

Trustees will take another look at the budget during their regular meeting June 7. They also may begin the discussion of salary hikes at the June 7 session.
